Summary

Junior Full Stack Developer with three years of experience in software development, specializing in creating efficient digital solutions.

I excel in the **front-end** but also have solid **back-end** experience with Express and PHP. I have knowledge of **monolithic** architectures, **microservices**, and am currently learning **hexagonal architecture**.

Ready to apply my skills with enthusiasm, commitment, proactivity, and responsibility.

Technical Skills

- **Frontend:** HTML, CSS, Tailwind, Bootstrap, JavaScript, TypeScript, React, Next.js, Astro
- **Backend:** Node.js (Express), PHP, C#, Python
- **Databases:** MySQL, SQL Server, SQLite, MongoDB
- **Tools:** Git, GitHub, VS Code, Thunder Client, Visual Studio
- **Architectures:** Monolítica, Microservicios, learning Hexagonal

Projects

- [Memory Game](#) - Interactive web memory game using **React** and **Tailwind**
- [Hangman Game](#) - game built with **React** and **Tailwind**.
- [To do App](#) - Task management app using microservices (**Next.js**, **React**, **PostgreSQL**, **SQLite**).
- [Spotify Clone](#) - Functional Spotify clone with **Astro**, **React**, **Tailwind**
- [Book Master](#) – Physical bookstore management system with **PHP**, **MySQL**, **JavaScript** and **Bootstrap**.

Education

| | |
|---------------------------------|----------------------------|
| Software Development Technician | In progress (Ends in 2025) |
| Universidad de Oriente (UNIVO) | |

Certifications

- | | |
|--|--------------------------|
| •  Microsoft Azure AI Fundamentals (AI-900) | Microsoft, February 2023 |
|--|--------------------------|

Courses

- | | |
|---|-------------------------|
| •  JavaScript Algorithms and Data Structures | freeCodeCamp, June 2024 |
| •  Front End Development Libraries | freeCodeCamp, July 2024 |
| •  Data Visualization | freeCodeCamp, July 2024 |

Languages

- Spanish (Native)
- English (Intermediate) – in progress
